TO WHOM IT MAY CONCERN

Dear Sir/Madam,

Re: Recommendation in Favour of Nelson Kamau, BIT-1-6611-3/2020

Mr. Nelson is a student in the department of Computer Science.

He has expressed interest in joining your organization for his internship. It is our belief that he will learn a lot from you especially concerning the way that Computer Science is used as a tool for accuracy and efficiency in the running of an organization like yours. We also do hope that your organization will benefit from some new advances in the field that he has learned at the Kenya Methodist University.

He is academically active, polite, and respectful of the authority and has a pleasant personality. We believe you will enjoy working with him as we do. We therefore do firmly recommend him for you.

I wish to recommend him for your consideration for further training and/or employment.

Yours faithfully,

  
Mr. Robert Mutua

Chairperson of Department, Computer Science
